

Sunlight divine light eternal,
illuminating our soul and consciousness,
radiating inward and outward as a
beacon of creativity and love.

'This music is a celebration of the times
when we know we are alive, when we
feel and breathe the joy of being.

When we are a sun ourselves, shining
from within, radiating our own light.'

Having alluded to this music's joyful,
active, movement-inducing qualities,

It may seem paradoxical to call it
meditative/devotional, but no doubt
it's magic. A contemplative state of
being - welcoming and full of
celebratory gratitude.

“Music that moves and inspires, as
bright and life affirming”

Digital Passion

The Performer:

Skillful handling on his flute weaving into a masterful deployment of mesmerizing rhythms and synthesis. Highly meditative with spellbinding hypnotic effect.

Instrumental music, combining a rich, sonorously soothing tone and impeccable technique, displaying amazing virtuosity, vivid, creative, elaborate encompassing the whole range of genres fluidly integrated and assimilated. Quintessentially, this music is an exotic combination of sounds in search of newer dimensions of melodic and spiritual fulfillment in the seemingly unfathomable skies of Harmony.

Internationally acclaimed musician/composer, combining contemporary and traditional musical forms. Siraj has created music that is at once meditative and inspiring.

Compare this auditory experience to a visual one, walking into a garden with walls of multicolored

flowers in Technicolor turned up to 11 on a scale of 1-10.

As a master of Transcendental Meditation Music, the essence of the highest consciousness, center of the universe experiencing it's heat and light permeating everything.

Bose® Sonic Equipment

The L1 Model II sound system feature high-quality construction and delivers the same clear sound and even, consistent volume levels as the first L1. With increased sound dispersion from the Articulated Array speaker design, the overall sound is wider and stays fuller and more defined throughout the sound field.

The T1 ToneMatch™ audio engine delivers all-in-one mixing and effects processing with presets based on the instruments you play. For musicians without a dedicated sound man it is a powerful ally in the nightly fight for consistent sound. It ensures that every time you're onstage, you'll get the best sound possible without spending hours in sound check.

Siraj (_Si'-Raj'>) n 1. Light. Form of radiant energy that stimulates. 2.

Luminous energy. 3. Source of brightness like the Sun or Torch. 4. *Spiritual understanding.* 5. Aspect to see things in a new light. 6
